March 30, 2018

Dear Friends,

Everything in life has a season and I'm incredibly thankful for the season I've experienced over the past eight years at the Pediatric Clinic. I can't express the honor and joy I've had in meeting you and each of your precious children – in sickness and in health.

Partnering with you in helping your sick little ones get well and seeing them healthy and grow are times that I will always hold dear. I'm happy to say that so many of the relationships I've made with patients and parents have grown to feel more like friends and family.

A new season will begin for me soon and it's leading me away from this family and providing me with a new one. I will be leaving the Pediatric Clinic and the Knoxville area at the end of June. It was a decision covered with many prayers and not made lightly. While I will miss seeing your little ones grow and watching them achieve all that God has in store for their lives, there is great joy for me and my children through this change.

All of the staff members at Pediatric Clinic who treat your kids are wonderful. They will work with you to help you choose one of our other pediatricians with whom you and your kids are most comfortable.

In the meantime, if I can help you, please let me know. And if your kiddos are due for physicals between now and June, I hope you'll schedule a visit so I can see them one last time and give them a big hug! Thank you again for trusting me with the health of your children and letting me love them dearly.

Gratefully and thankfully yours,
